### Spring Grid Training Is In Progress

#### 1947 Schedule Provides Four Home Games for Pipers

Spring football training for the Hamlin Pied Pipers is progressing favorably, according to Coach L. B. Howard, in spite of the worst weather March has dished out for this area in many years. Howard started out with a squad of 45 boys, and now has 36 boys going through their daily paces with the pigskin.

Piper fans are invited to visit the field any afternoon and the coach calls attention to the intrasquad games held each Friday afternoon at 2 o'clock. Two more games are expected to be played and a special announcement will probably be made soon in regards to the final game. Last Friday afternoon the Whites beat the Green, 14 to 6.

Coach Melvin Carlton, who is training the Pied Pipers of the future, the Mighty Mice has a squad of about 50 grammar school boys working out.

The 1947 schedule of 10 games, four of which will be played on Piper Field was released this week by school officials:

### Calvary Baptist Pastor Attends National Meeting

Elder W. E. Nunn, pastor of the Hamlin Calvary Missionary Baptist Church, and Elder G. A. Nicholson attended the National American Baptist Association meeting last week in Shawnee, Oklahoma. They were sent as messengers from the local church.

The meeting which began Monday and continued through Wednesday, was a gathering of messengers from 20 different states, and some from Canada, Hawaii, Australia, Mexico, China, Canal Zone, Alaska were represented by foreign missionaries and workers or by letters from these fields. A message from Brazil was also read. All foreign missionaries were re-elected; and one for the Philippines and one for Mexico were added. The same number of Interstate Missionaries (in the Continental United States) were elected for another year.

Dr. Gerald D. Keller, president of Jacksonville, Texas Baptist College, was elected as new president of the association. Elder John W. Duggar, of Port Arthur, Texas, was elected one of the vice-presidents. They were the only new officers from Texas which were elected.

"We are expecting a great year, this coming year," Elder Nunn stated. The next session of the association will be held in March 1948 in St. Louis, Missouri.

#### T. J. Nall Seriously Ill

T. J. Nall, Hamlin businessman, was reported to be very low at his home Thursday morning. Little hope is held for his recovery. He has been seriously ill for several days.

Mrs. Bill Burnett has returned home after spending two weeks with her parents, Mr. and Mrs. John Knott in Dallas.

Mr. Smith will be in charge of the music during the revival which begins March 26.

### Great Job of Highway Department Depicted at C. of C. Banquet Friday

#### Fred Smith to Lead Hamlin Chamber During Next Year

A brief picture of the tremendous job facing the Texas Highway Commission was painted for about 200 members and guests at the annual Chamber of Commerce banquet here last Friday night by Fred Wemple of Midland, the newest member of the commission.

Pointing out that County Commissioners have the job of maintaining 174,000 miles of so-called farm-to-market roads, he revealed that in 1946 the federal government had appropriated \$30 million dollars for a three year program. With the state matching this a total of \$60 million dollars will be available for use each year or a total of 180 million dollars in 1946, 1947 and 1948. Wemple said this amount would make possible about 7,500 miles of such FM roads during the period. Well over 2,000 miles has already been built, he said.

In a humorous vein, the speaker said that Texas people are clamoring loud and long for more and better roads, with no increase in taxes. Regardless of that, he said the commission as far as he could tell after serving only a few brief weeks, was honestly trying to allocate available funds equitably and wisely.

Declaring that now our problem was no longer one of war but one of peace, he said that the future of the nation was in the hands of such a group as he was addressing and urged his auditors to give time to fighting the conditions that threaten the stability of the country.

### Old-Fashioned Bazaar To Be Held Saturday

An old-fashioned bazaar will be held in Hamlin Saturday, March 22 under the sponsorship of the Woman's Literary Club. It has been announced by Mrs. Henry Albritton.

Beautiful handmade aprons, pillow cases and other articles will be featured. A nice assortment of home-made pies and cakes will be on sale also. Home canned foods will be another feature.

The bazaar will be held at the Hamlin Motor Company and everyone is urged to visit the stand and purchase something.

### "Pied Piper" Rids Hamlin of Rats In Eradication Drive

A modern version of the famous Pied Piper of Hamlin (Germany) was witnessed here this week with hundreds of rats being killed as a result of the eradication campaign which was completed under the direction of M. E. Scott, from the Texas State Board of Health.

Mr. Scott has been in Hamlin for the past ten days arranging for and conducting the program, which was sponsored by the Chamber of Commerce in cooperation with the City of Hamlin.

The industrial section was also covered in this campaign.

### Winkels Grocery Now Red & White Store

Winkels & Son Grocery announced last week that their store has joined the Red & White system, a chain of home-owned independent grocers. This new unit makes two Red & White stores in Hamlin, Coltharp Grocery also being a member of the group.

The store has been completely renovated and modernized on the interior and presents a very attractive appearance.

## Mid-Year Price Slump Forecast by the Experts

Price drops by next fall on most of the products which have soared highest since OPA became a dead issue—like cotton goods and food—are anticipated by officials of the Department of Commerce in Washington.

On the basis of a cautious official report on commodity prices, Commerce Department economists gave these unofficial conclusions Saturday in interviews:

1. The downtrend will be mild, not approaching the depth of a true "recession."

2. It will start around midyear with drops in a few lines, then gain speed as more items come into balance with demand.

3. It will be uneven. Some prices may still be rising while those farthest out of line come down.

The study lists those items as priced "far in excess" of their usual place in the wholesale price structure and

### Hamlin Enters 8-Team High School Baseball Loop

The state-wide interest in the revival of high school baseball has resulted in the formation of an eight-team district in this area, it was revealed this week by Coach L. B. Howard of Hamlin. Supt. I. R. Huchingson of Hamlin is chairman of the district, to be known as District 13A.

Member teams are Hamlin, Merkel, Rotan, Colorado City, Trent, Tuscola, Divide and Highland.

Officials are now completing a schedule which will be released soon it was said. At present times plans call for play to start on May 16 with

a game each week until May 30. After school closes two games week will be played until July 16. Following end of the schedule the two top teams will play off a series for the loop championship. A game will be played here one time, and away the next.

Coach Howard says that about 28 boys have indicated they will come out for the diamond sport and he believes this will give him ample-sized squad. Workouts will start on April 11.

Since no money is available to buy uniforms, a large number of townspeople have donated money to pay for uniforms.

### Jones County's Old Production Area To Get Ellenburger Test Soon

A deep test to check all formations through the Ellenburger has been announced for one of the southern Jones' oldest producing areas. It is in the Sayles field, which has been in production over 14 years.

The test is the first to check the Ellenburger in that area and the first to go below the Swastika in the field proper, where production comes from a little over 2,000 feet.

Permit calls for 5,250 and is listed as the Condor Petroleum No. 44 Henry Sayles, Jr., and is located 300 feet north of the discovery well Condor No. 1 Sayles, completed in January, 1933.

Operations are expected to get underway by March 25.

Five miles south of Truby the No. 1 Reeves has been abandoned dry at 4,286 feet.

In the Hardy pool, six miles north of Anson, the Great Lakes Carbon No. 4 Mattie Braden, southwest outcrop, has resumed testing after cutting two more feet of pay at a total depth of 3,706. Before deepening the hole filled 1,300 feet with oil and no water overnight. It is felt more porosity will be found deeper.

At Lueders official gauge of 46.62 barrels of 37 gravity oil on pump has been filed for the Moore No. 3 King and a 2,100 foot cable test has been set north of Lueders.

In the Fisher County Eskota pool casing has been set at 4,380 feet and plug was drilled early this week at the Skelly Oil No. 5A Huddleston. Top of the reef was logged at 4,300 feet. Good recovery was logged on tests.

### Jaycees Meet Each Thursday Noon Since Re-organization

The recently rejuvenated Junior Chamber of Commerce now meets each Thursday noon at the Morgan Hotel, and former members are asked to attend the meeting, according to President Charles Prather. Twenty members are signed up to attend the luncheon and several others are also members.

One of the first projects agreed on by the group was to sponsor a number of candy gum ball machines to raise additional funds.

Last Thursday the group heard James W. Love, coordinator of the Jones County Vocational Veterans Schools, explain work of the system. The Jaycees recently voted to loan \$250.00 to carry on the work until sufficient funds are on hand. Directors of the senior Chamber of Commerce put up \$750.00 to make Hamlin sponsor the schools to the same extent as Anson and Stamford.

### Local Youngsters Entertain Lions With Music Program

A musical program presenting two Hamlin youngsters was enjoyed by the Lions Club at their meeting Tuesday. Lion Ted Russell presided as program chairman in the absence of Arlie Casle, a victim of flu.

Faith Simpson and Carl Travis Young, pupils of Mrs. J. B. Baker, gave several vocal duets and piano solos that were greatly enjoyed. Mrs. Lott Shell accompanied them on the piano.

Ladies night was postponed again, but members will be notified in sufficient time, it was said.

### Don Hymer Sell Modern Cleaners To Boyce Briscoes

Mr. and Mrs. Don Hymer, owners and operators of the Modern Cleaners for the past 18 months, announced Thursday that they have sold their business establishment to Mr. and Mrs. Boyce H. Briscoe of Brownwood.

The new owners will take over the shop Monday with John Hymer and Mrs. Zelma Perryman continuing to work under the new set-up.

Mr. and Mrs. Briscoe have been in the cleaning business for many years and specialize in work with ladies clothing.

Mr. and Mrs. Hymer have not announced their plans for the future.

### Weekly Trades Event Starts Here On Wed. April 16

Approximately 60 Hamlin business houses have agreed to back a weekly "trades day" plan to be known as Trades Appreciation Day, it was announced this week by Mrs. E. M. Wilson, secretary of the Chamber of Commerce. The Chamber of Commerce agreed to sponsor the event after a large number had signed contracts with the National Trades Appreciation Company, originators of the plan. Merchants held a meeting Monday night and Tuesday morning the board of directors of the C. of C. voted to sponsor it.

No other nearby town will have anything like this plan, according to representatives of the firm working here. The plan has been tried in Weatherford (where it originated) and other towns and has proven highly successful.

Under the plan, details of which will be revealed later, people of Hamlin and surrounding areas who trade here will have an opportunity to share in an appreciation fund contributed by local merchants and business firms.

Merchants will offer special bargains to shoppers as another way to show their appreciation on the weekly Appreciation Day which will be held on Wednesday.

The first of the special weekly events will be held on Wednesday, April 16, under present plans.

### Plans for First Baptist Revival Are Complete

Rev. John Osteen, pastor, announces that the First Baptist Church revival will begin Wednesday evening, March 26 and continue through Sunday, April 6.

Services are conducted at 10 a. m. and 7:45 p. m. each day except Saturday. Rev. Carl Nelson, pastor of the First Baptist Church of Gentry, Arkansas, will be the evangelist, and Bro. Bonnie Smith, educational director, will be in charge of the music.

The WMS of the church conducted a visitation program Monday and will have another next Monday.

On Friday night, cottage prayer meetings are planned to be held in the following homes at 7:30: Mrs. W. W. Green, Mr. and Mrs. Aubrey Miller, Mr. and Mrs. Altum, Mr. and Mrs. W. A. Albritton, Mr. and Mrs. Ira Clements, Mr. and Mrs. W. L. Boyd, Sr., and Mr. and Mrs. Carl Young.

Those living near any of these above mentioned homes, are invited to join in these prayer services.

An all-night prayer meeting is scheduled for Tuesday, March 25 and will be held at the church auditorium. This is to be a chain of prayer with some one at the church praying at all hours of that night.

The nursery will be kept open for the children at every service during the revival.

### Semi-Monthly Sing-Song Here Sunday

The regular semi-monthly singing meets again Sunday afternoon at 2:30, with the Hamlin Calvary Baptist Church according to the corresponding secretary, Georgia Nunn.

A cordial invitation is extended to everyone.

#### Track Meet

District track and field meet will be held on March 29, Coach Howard says. Only five boys are out for the events.

## OVEN CIRCULATION

When it comes to oven cooking, an ultra-modern gas range built to "CP" Standards is alone. It takes out all guesswork. The automatic control holds temperature at any desired level from 250 to 500 degrees. It is ventilated so that heat circulates on every level. This ventilation makes it possible for odors from cooking to be carried outside the oven and not cooked into its walls.

The one sure way to get these and other advantages of gas cooking is to look for the "CP" Seal on any "make" range before you buy. You may have to wait a bit for a range built to "CP" Standards, but it is worth waiting for. It will give you Cooking Perfection.

## Satirical Operettas To Be Presented at Hardin-Simmons U

Abilene—The Mikado, H. M. S. Pinafore, and the Pirates of Penzance, beloved satirical operettas of Gilbert and Sullivan, will come to Hardin-Simmons university, Friday and Saturday, March 20, 21 and 22. The operettas will be given in that order. There will be a matinee and evening performance of the Pirates of Penzance.

H. M. S. Pinafore, a satire of the British navy, includes a company of favorites long associated with the Gilbert and Sullivan operas. Henry Scanlon, recently heard with the Los Angeles-San Francisco civic light opera company after his discharge from the armed forces, portrays the leading tenor role of Ralph Rackstraw in Pinafore. Scanlon has previously been connected with the Weldon Opera Company.

Virginia Blair is heard as Josephine, Fraser Lister as Sir Pophose Porter, ruler of the Queen's naves, though he has never been to sea, and Marsden Argall portrays Dick Dead-eye.

### Calvary Baptists Plan Revival for April 11 to 20th

Plans are underway for a spring revival at the Calvary Missionary Baptist Church to begin April 11 and continue through Sunday, April 20th, according to the pastor, Elder W. E. Nunn. Complete details for the meeting will be announced soon.

"The entire membership is urged to begin planning, working and praying for the success of the revival," states Eld. Nunn. "Preparation ahead of time is the best policy. The entire community and adjacent territory has a cordial invitation and welcome to attend these services."

Work was begun on the Sunday School rooms and it is hoped that they

will be completed in thirty days. "If any of our members or friends of our church have not helped with this project and would like to do so, we will be very much. We also thank those who have already lent a helping hand. A welcome is extended to all at all times to attend our church."

The church program is as follows. Sunday School, each Sunday at 10 a. m.; preaching at 11 a. m. and 7:30 p. m.; BLC at 6:30 p. m. each Sunday evening; Women's Missionary Association at the church or some home Tuesday afternoon at 2 o'clock; prayer meeting, Wednesday night at 7:30. On Thursday nights before the second and fourth Sunday's the Brotherhood of the church meet at the church at 7:30. On second and fourth Sunday afternoons at 2:30 a sing-song is held at the church. Each Saturday from 12:30 to 1 p. m. the Calvary Baptist Church has a program over the Sweetwater radio station.

### Right Hand Page Better for Ads? Sorry, It Isn't!

NEW YORK—Despite the popular belief that right hand pages are better than left, a survey indicates that just the opposite is true.

A recently-released report of the 1100-study summary of a continuing study of newspaper reading by the American Newspaper Publishers' bureau of advertising shows that left-hand pages lead right-hand pages by a narrow margin.

### Cotton Balance At Lowest Level Since 29-30 Period

Austin—Cotton balance sheet figures released by The University of Texas Bureau of Business Research show a February 1 balance of 9,400,000 running bales on hand, recording the lowest February 1 balance since the 1929-30 cotton year.

Dr. A. B. Cox, professor of cotton marketing in the College of Business Administration, analyzed the cotton picture in the Texas Business Review, monthly publication of the Bureau. "Cotton consumption during January 1947 was at a rate almost equal to January 1942, the crop year in which the United States had its all-time high record consumption of 11,700,000 bales

"The strength in the present cotton commitments already made which are market lies to a large extent in the yet to be worked out. Mills have sold goods at wide margins, a considerable part of which remain to be manufactured."

### Fairview Baptist Church Revival

Rev. Jack Achenson of Abilene will do the preaching at a revival which begins at the Fairview Baptist church Monday evening, March 24.

Only night services will be held. Everyone is cordially invited to attend any or all of these services. The meeting will close Sunday, March 30. It has also been announced that Rev. W. Taylor Worth of Whiteflats will fill the pulpit Sunday morning, March 23. The public is invited to be present.

Mr. and Mrs. H. P. McKiddy visited relatives in Breckenridge during the weekend.

D. L. Bristow is in a Abilene hospital for examination and treatment this week.

The carryover of cotton in the United States on August 1 will be about 7,522,000 running bales, the smallest August 1 carryover since the 1937 low of 4,498,000 running bales.

## Soil Conservation Increases Yield On Chairman's Farm

"The use of conservation farming methods has increased my crop yields by 15 to 30 per cent" stated Jim McCulloch, pictured above, who is chairman of the board of supervisors for the California Creek Soil Conservation District.

McCulloch, like the other four supervisors, "practices what he preaches" when it comes to farming the conservation way. Although he has

Jim McCulloch

not lived on the farm since 1931, he keeps close tab on the operations of his 600 acre farm in the Sunnyside conservation group.

Terracing, contour cultivation crop residue management and chop rotation are among the practices being used by the chairman. For a crop rotation system adapted to the gently rolling heavy dark soils of his farm he uses complete rotation of all crops every three years and grows cotton no longer than two years in succession on the same tract of land. Deep breaking is applied in the summer only, in order to give ample time for the soil to become restocked with moisture. Applicable crop residues are kept in the surface layer of soil through shallow tillage with a oneway plow.

McCulloch made his first crop in 1919 and has farmed each year since then. He applied terraces to some of his land as early as 1924, and in 1940 completed terracing both the Sunnyside and his Haskell county farm. The Haskell farm, which was sold in 1945, made use of the "syrup pan" principle of terracing to utilize runoff from an outside supply.

The district was organized in 1941 and Jim has served as chairman supervisor since that time having been re-elected in 1944 for a five year tenure. His and the work of all other supervisors is on a non-pay basis.

## HERE'S HOW!

Reddy Kilowatt doesn't come to you direct from our large generating stations. It takes lots of briefing and screenings to send him to you as a useful household servant.

In order for him to do work so economical, it is necessary to generate power and energy for him in vast quantities and at voltages far too high for any commercial or residential use.

From Reddy Kilowatt's birth of energy in power stations, to transmission lines, to substations, to the wires to your home, it takes "know-how" for him to economically and efficiently deliver at half the wages he was paid even 20 years ago.

And he is always Reddy.

BIG JOB

One of the first things a new telephone operator learns is to be always ready for the next call—your call—anybody's call!

Operators have a lot of calls to handle nowadays. There are more telephones in use than ever before and calling is at an all-time high. The switchboard at times is literally ablaze with lights—each one calling for "Number, please?" and each one getting a "Number, please?" as quickly as skilled and courteous operators can manage. If your call is not answered at once, you'll know that nimble fingers will reach it as soon as they possibly can.

As soon as much-needed new equipment can be obtained and installed, we'll be ready to handle your calls quicker and better than ever before.

**BRUSH YOUR TEETH, COMB YOUR HAIR!** — These by-words your Greek War Relief Association supervisor teaches the youth of Greece. A million children eat a warm, noonday meal at CWRA feeding centers, thousands of orphans are given "foster homes." \$6.60 supports an orphan one month; \$2.00 feeds a school child one month. Pennies can save Greece's children today—your son's neighbor of tomorrow. Rush your pennies to Greek War Relief's 1947 Campaign, 221 West 57th Street, New York 19, N. Y.

Hog prices slumped during the week to levels mostly 50 cents to a dollar or more lower. Top prices for the week were \$26 at San Antonio; \$26.75 at Fort Worth; \$27.75 at Oklahoma City; \$27.85 at Wichita; and \$28.25 at Denver.

Slaughter lambs held steady at San Antonio and Wichita, but eased off mostly 25 to 50 cents at other south-west markets.

Spot cotton climbed another \$3.50 per bale last week, although markets saw less activity. Offerings appeared adequate to satisfy demands.

## How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2. Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

A MESSAGE FROM  
THE  
SECRETARY OF WAR

How you  
can help

YOUR ARMY DO ITS  
PART FOR PEACE

With the President's proposal for the discontinuance of Selective Service on March 31, America will rely on voluntary enlistments for the maintenance of the Regular Army at authorized strength.

In view of world conditions today, this is a step of the gravest importance to every American citizen. Never before in history has any nation raised and maintained a million-man army by the volunteer system alone. Our ideals, our belief in individual freedom, our safety and our duty to promote world peace—all are bound up in this decision.

This is your Army, and voluntary enlistment is your choice. It must not fail. With your help it will not fail. The Army must continue to provide adequate occupation forces overseas, to supply these forces, and to help in keeping America strong and secure.

Your help and understanding can do much to encourage a steady flow of 3-year voluntary enlistments, necessary to sound training and the efficient performance of the Army's task.

When you discuss this subject with your sons, brothers, husbands or friends who may be considering an Army career, bear in mind the advantages offered by a 3-year enlistment. Among them are the choice of branch of service and of overseas theater where openings exist, and the opportunity for thorough training in valuable skills.

A job in the new Regular Army compares favorably with the average in industry, and has more opportunities for promotion than most.

You can help by giving your respect and support to the man who enlists voluntarily—to do his part in carrying out your country's world-wide obligations to build a peace that will endure.
